CLASSIC VINEYARDS

Casa D'Almeida Wine Compromise

Casa D'Almeida - Classic Vineyards has developed its own style of wine production with the deepest respect for traditional know-how, associated with contemporary innovative methods in tune with sustainability and the utmost respect for Nature.

The Wines Casa D'Almeida - Classic Vineyards, stand out for their elegant character and festive attitude, involving every moment in an atmosphere of pure Celebration and Success. Our philosophy combines our values, identity and our Commitment to Wine.

NATURE FIRST

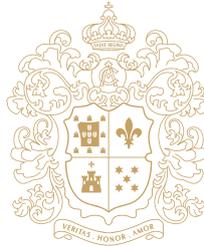

Nature rules the time and space we inhabit. Our responsibility as producers encompasses the ability to listen and meet the constant demands we are faced with. We are undeniably committed to adapt to the natural conditions and constraints, namely in what concerns the appropriation of the physical space, the preservation of the traditional wine trade characterised by a secular close dialogue with nature, and the maintenance of the natural alchemical process of wine production.

HERITAGE

It is undeniable that our children are our most vigilant and demanding judges. Therefore, we have the responsibility to challenge ourselves as individuals, and preserve the resources we share, upholding their balance and promoting their sustainable development.

The acknowledgement and protection of a legacy of knowledge that transcends History and Science and the safeguarding and preservation of the valuable collection that constitutes our natural heritage ensures that we can leave our future generations the best legacy.

CASA D'ALMEAR

CLASSIC VINEYARDS

A UTOPIA OF INSPIRATION

A family with a close relationship with the community, bonded in a spirit of joy, true freedom and sharing, are also the source of inspiration and the cornerstones of our success. Together, women, men, young people, children, winemakers, cellar masters, among others have designed this place, *Casa D'Almeiar*, encouraged by a sense of fraternity and search for perfection, with freedom to act and professional rigour, thus creating and offering our customers distinctive and attractive wines.

TRADITIONAL KNOW-HOW

The beauty of the traditional vinicultural art, expressed in its close dialogue with nature, in the slow, patient, gradual progression from the vineyard to the winery, and in the skills of the complementary crafts of the winemakers, inspires and guides our *modus operandi*.

OENOLOGY AND SUSTAINABLE DEVELOPMENT

We appeal to a non-oxidative oenology that respects the innate potential of grapes, as well as the potential for natural aging of the wines themselves, ensuring maximum quality and excellence.

We believe in a responsible and personalised oenology, committed to sustainable development, with minimal intervention to preserve the natural diversity and specific characteristics of our grapes and vineyards.

INNOVATION

We resort to the most original legacy of the wine ritual which defines the primary matrix of our production methodology. At the same time, we believe in contemporary vinicultural methods and winemakers that are in line with the philosophy of *Casa D'Almeiar - Classic Vineyards*.

Innovation ensures the constant improvement of the quality of our wines, promotes sustainability, and ensures customer motivation, interest and satisfaction.

CASA D'ALMEAR STYLE

The *Casa D'Almeiar Style* is young, noble and is characterised by a deeply joyful demeanor.

Relying in attitude and authenticity, the *Casa D'Almeiar* produces festive wines and sparkling wines, celebrating Life and creating your moments full of meaning and success. It stands out for its distinctive style, its bright fruity body, an attractive palate and a special maturity.
